the **STAY THE FUCK HOME** game

INSTRUCTIONS

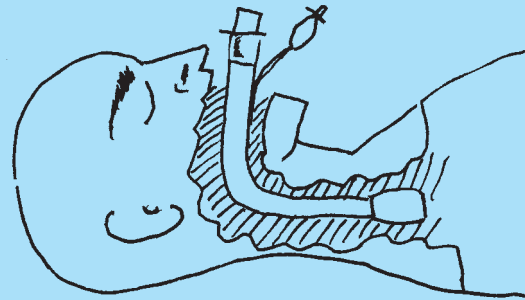

Playing the **Stay the Fuck Home Game™** is simple and fun for the whole family! All you need is a single die and a unique game piece for each player. (Any old bauble will do.) Cut out the **Unwashed Hand of Chance** cards (below) and stack 'em where the game board says to. To start the game, all players put their game piece at **HOME**. Each player in turn rolls the die and moves that number of steps on the path toward their desired destination. Or not. You see, each player has the option of passing on their turn and **Staying the Fuck Home** and reading a book, watching Netflix, learning a craft, practicing guitar, applying for jobs, trolling people on Reddit, or doing whatever the fuck they want to do. When a player who declines to **Stay the Fuck Home** arrives at their destination, they pick the top **Unwashed Hand of Chance** card, which reveals their fate. The object of the game is to stay alive and not infect your loved ones. Good luck!

UNWASHED HAND OF CHANCE CARDS

You caught a nasty case of COVID-19. You were on a ventilator for a week before you succumbed. Game over.

“It’s just a cough,” you thought. Nope. You spread coronavirus to 20, including an expecting mother.

Congrats! You’re an asymptomatic spreader. You infected an even dozen — four were hospitalized, two died.

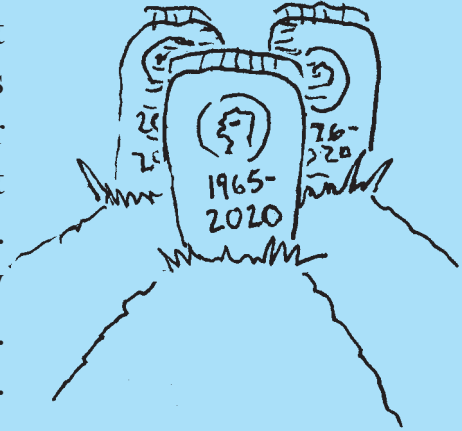

UNWASHED HAND OF CHANCE CARDS

You got lucky this time and didn't contract the virus. Return to "Home" and try again. It's still out there.

You brought the coronavirus home. Your roomie took it to the office. Everybody there got sick. Three died.

Oops! You ran into someone spreading the 'rona. Your own case was mild, but it killed mom.

You get your picture on the news as a "super-spreader." Of the 30 people you infect, six die.

You bring COVID home. Everybody in the house catches it. Dad and your baby sis don't make it.
